Area 8
Students Exchange
Intercambio de Estudiantes

It is foreseen to exchange a maximum of 2 students per university per year for studying/doing internships at the partner university, according to the conditions defined in the co-operation agreement and financed via scholarships.

Summary for student co-supervision

Students from UNALM and BOKU are offered the opportunity to participate in on-going research activities and to write their theses under the joint supervision by professors from BOKU and UNALM. Students from all universities have to apply for scholarships to cover their expenses.

Summary of academic staff visits from UNALM:

UNALM professors should present a five to ten days working schedule three months before beginning their trip. Coordination with the BOKU professor in charge should also be held.

Professors visiting BOKU need intermediate knowledge in English language, except the whole working program for the visit can be operated in Spanish language (this is to be clarified during elaborating the working schedule).

Travel costs* will be paid by sending university, living costs* will be paid by receiving partner. In total each year BOKU will pay hotel costs up to a maximum of 20 days for teaching staff / scientists from UNALM on a first-come / first serve basis. Names just are preliminary and - if necessary - may be changed. Student groups from UNALM can't be funded by BOKU.

* Travel costs/living expenses will be covered by UNALM only if there are available funds. In the case they are not, travel costs/living expenses should be paid by traveler.

**Extraordinary visits
Visitas Extraordinarias**
